

FINANCIAL AID

Financial aid in the form of scholarships, grants, loans, and employment is available to eligible UAS students who need assistance to attend school. Financial aid may help pay for tuition, fees, books, and supplies for classes required for your program of study at UAS, and also for living expenses. The Financial Aid Office assists students in applying for funds to attend any of the UAS campuses. Types and amounts of financial aid vary according to federal, state and institutional guidelines, student need, and availability of funds. For detailed descriptions of available financial aid programs, eligibility requirements and application procedures, please visit the UAS Financial Aid website (https://uas.alaska.edu/financial_aid/). All applications for financial aid for students at all UAS campuses (Juneau, Ketchikan, and Sitka) are processed in Juneau.
